More about our Speaker:

Dianna Stahl and Dan Kaufman be presenting on "The global agenda and how it's energetically effecting you and what you can do." This presentation will give the highlights of what some people would like to see society become and how they are manipulating things behind the vale. The men behind the curtain... You will also have the opportunity to see your energy using a bioenergetics medical device, how these changes are affecting your energetic systems and what you can do to prevent it.

A little about Dan Kaufman, he is a self taught renaissance man. A jack of all trades and a master of quite a few. Research is one of his strong points and continues to always find new and interesting facts about the world around us focusing on solutions, how to make the world a better place. Dan and I will be discussing what we have been witnessing with the human energy field over the last 11 years and the some 18,000 people that we have scanned.
