The Cancer Cure that Worked?!

- In the early 1900s, one in 20 people developed cancer.
- In the 1940s, one in 16 people developed cancer.
- In the 1970s, it was one in ten.
- Today, it's one in three!
- ***This means: Hey Stupid! No more cigarettes for you...***
- ***This means knock it off putting that rancid sugar garbage into your dog mouth...*** (That's your mouth; not your pet's mouth...)

Combo Flyer:

Save this one for two months:

- **8/22/13** Don Benson speaks on the wonderful career of Royal Raymond Rife and his work dealing with Cancer.
- **9/19/13** Wise Woman Diana Rankin speaks: Psychic Reader and Transformational Life Coach.

Thursday August 22, 2013 at the U/U Fellowship at 7pm:

Don Benson Speaks Again! Back a few years ago when Emerson and Karen King still had Wisdom Quest, Don Benson gave us a talk about Royal Rife that was real extra good. Much depth; much knowledge, much work in preparation; and a businesslike stand up delivery style that partially used:

"Monroe's Motivational Sequence"

1. Got our Attention: Hey! Listen to me, you have a PROBLEM! Duh? Cancer is on the loose and on the rise. Modern Mainstream Medicine realizes "We are all in this together, Fighting your Cancer" Always Fight, Never Cure. Certainly not prevent.

2. Need: Let me EXPLAIN the problem. One in three Westerners scheduled for Cancer lately

CAVEAT EMPTOR!
Ain't No Healing here Boss, I promise

3. Satisfaction: But, I have a SOLUTION! Attend this Wisdom Quest Meeting August 22 to stay moving along your shining path to Cancer Free Health.

4. Visualization: If we IMPLEMENT my solution, this is what will happen. Or, if we don't implement my solution, this is what will happen. (Strapped to a Gurney in the Oncology Ward, awaiting your Chemo).

5. Action: No, not your money; but your MIND. You can help yourself in these specific ways: From <http://www.lewrockwell.com/2013/08/joseph-mercola/theres-no-cancer-cure/>

Carbohydrates and Sugar: Reduce or eliminate processed foods, sugar/fructose and grain-based foods from your diet. This applies to whole unprocessed organic grains as well, as they tend to rapidly break down and drive up your insulin level. The evidence is quite clear that if you want to avoid cancer, or you currently have cancer, you absolutely MUST avoid all forms of sugar, especially fructose, which feeds cancer cells and promotes their growth.

Dr Joseph Mercola M.D. further states: "Without a doubt the most powerful essential strategy I know of to treat cancer is to starve the cells by depriving them of their food source. Unlike your body cells, which can burn carbs or fat for fuel, cancer cells have lost that metabolic flexibility. Dr. Otto Warburg was actually given a Nobel Prize over 75 years ago for figuring this out but virtually no oncologist actually uses this information."

'Don't You DARE Cure Anyone!'

In spite of enormous amounts of money funneled into cancer research today, two out of three cancer patients will be dead within five years after receiving all or part of the standard Cancer Treatment Trinity—Surgery, Radiotherapy and Chemotherapy. Not surprising when considered that two of the three are carcinogenic themselves! One study estimated that chemotherapy benefits about one of every 20 people receiving it.

Over the last hundred years, a number of natural cancer treatments have been developed and used successfully to treat patients in the US and other countries. All have been vehemently discounted, silenced, and pushed under the rug by the medical monopoly, with physicians and researchers attacked, smeared, sent to prison, and professionally ruined for daring to defy the medical establishment.

To this day, with respect to credibility in medicine, "quack" is synonymous with "competition."

In order to protect the medical monopoly, any viable natural treatment is met with massive opposition by the pharmaceutical and medical industries. Drug companies have no interest in natural agents that they cannot patent, because they interfere with their revenue stream. They will go—and have gone—to extreme measures to prevent the truth about effective natural treatments (competitive threats) from reaching the public.

BEFORE: Rife, Brilliant Researcher who built marvelous Optical Microscopes of unparalleled power.

AFTER: Hounded unto Death because he would not "Sell Out" to Mainstream Medicine.

Thanks to Morris Fishbein MD of the dark tribal cabal that now feeds upon American medicine through metastasized control of the medical schools and the A.M.A. (American Medical Association); the gentle humanistic spirit of Royal Rife was hounded by persistent and corrupt lawyering and frivolous lawsuits unto Death. WHY? Because Royal Rife would not "sell out" to the Medical Monopoly headed up Dr Morris Fishbein!

From Wikipedia: https://en.wikipedia.org/wiki/Morris_Fishbein
"In 1938, along with the AMA, Fishbein was indicted for violating the Sherman Anti-Trust Act. The AMA was convicted and fined \$2,500 but Fishbein was acquitted. In the suit against Fishbein, representing the American Medical Association, Fishbein had to admit that he had never practiced medicine a day in his life and had never seen a patient, public or private."

Result? Today: It's only "Cut, Burn and Poison" for endless Cancer treatment. Most anything else; slandered as: "Quackery". Like most American Wars, The War on Cancer just goes on and on and on. National Cancer Act signed by Nixon 1971; today, 42 years later, this "long war" continues amidst endless pink ribbons and clamoring for more "funding".

"Everyone should know that most cancer research is largely a fraud and that the major cancer research organizations are derelict in their duties to the people who support them." - Linus Pauling PhD (Two-time Nobel Prize winner)
